"I wholeheartedly ask everyone to support Mikki Harris for Secretary-Treasurer! I served on the bargaining committee with her in 2011. As one of our lead negotiators we were able to bargain the best contract in history for our industry. Through her leadership we were able maintain health care at previous cost to us, add a holiday plus a 11 percent increase in wages overall! Join me and support this true labor leader!"

"I had the opportunity to meet Mark Federici one-on-one. I realized through our conversation that he cares about what we think and how we feel and only wants the best for us, not only cause we are union members but as real people. He showed me and all the other members that day honesty and integrity. For someone to have those qualities deserves my vote."
